BUILDING AND ENVIRONMENT—VOLUME 36
CONTENTS

Vol. 36, No. 1

N. E. Green, D. W. Etheridge and **S. B. Riffat**	1	Location of air intakes to avoid contamination of indoor air: a wind tunnel investigation
K. Kant, A. Kumar and **S. C. Mullick**	15	Space conditioning using evaporative cooling for summers in Delhi
I. M. Johnstone	27	Energy and mass flows of housing: a model and example
I. M. Johnstone	43	Energy and mass flows of housing: estimating mortality
K. Srinivasan and **N. E. Wijeysundera**	53	Heat and moisture transport in wet cork slabs under temperature gradients
Y. Li and **A. Delsante**	59	Natural ventilation induced by combined wind and thermal forces
E. Palaneeswaran and **M. Kumaraswamy**	73	Recent advances and proposed improvements in contractor prequalification methodologies
M. A. E. Saleh	89	The decline vs the rise of architectural and urban forms in the vernacular villages of southwest Saudi Arabia
H. Krogh, L. Myhre, T. Häkkinen, K. Tattari, A. Jönsson and **T. Björklund**	109	Environmental data for production of reinforcement bars from scrap iron and for production of steel products from iron ore in the Nordic countries
W. K. Chow, Y. Z. Li, E. Cui and **R. Huo**	121	Natural smoke filling in atrium with liquid pool fires up to 1.6 MW
M. J. Cunningham	129	Inferring ventilation and moisture release rates from field psychrometric data only using system identification techniques

Vol. 36, No. 2

A. Abdelbaki, Z. Zrikem and **F. Haghighat**	139	Identification of empirical transfer function coefficients for a hollow tile based on detailed models of coupled heat transfers
M. Foster and **T. Oreszczyn**	149	Occupant control of passive systems: the use of Venetian blinds
S. W. Rees, Z. Zhou and **H. R. Thomas**	157	The influence of soil moisture content variations on heat losses from earth-contact structures: an initial assessment
A. A. Peppes, M. Santamouris and **D. N. Asimakopoulos**	167	Buoyancy-driven flow through a stairwell
K. W. Cheong and **K. Y. Chong**	181	Development and application of an indoor air quality audit to an air-conditioned building in Singapore
M. G. Davies	189	Error analysis of wall heat flow using transfer coefficients
M. G. Davies	199	Hourly estimation of temperature using wall transfer coefficients
W. Z. Lu, S. M. Lo, Z. Fang and **K. K. Yuen**	219	A preliminary investigation of airflow field in designated refuge floor
M. A. Ealiwa, A. H. Taki, A. T. Howarth and **M. R. Seden**	231	An investigation into thermal comfort in the summer season of Ghadames, Libya
T. Rivas, B. Prieto and **B. Silva**	239	Permeability to water vapour in granitic rocks. Application to the study of deleterious effects of conservation treatments
H. Koskela, J. Heikkinen, R. Niemelä and **T. Hautalampi**	247	Turbulence correction for thermal comfort calculation
A. Özbilen and **A. Kalin**	257	The semantic value of plants in the perception of space

Vol. 36, No. 3

S. West	281	Improving the sustainable development of building stock by the implementation of energy efficient, climate control technologies
A. B. Ngowi	291	Creating competitive advantage by using environment-friendly building processes
L. S. Pheng and **B. Abeyegoonasekera**	299	Integrating buildability in ISO 9000 quality management systems: case study of a condominium project
S. Laporthe, J. Virgone and **S. Castanet**	313	A comparative study of two tracer gases: SF_6 and N_2O
H. Hao, T. C. Ang and **J. Shen**	321	Building vibration to traffic-induced ground motion
M. M. Kumaraswamy and **S. M. Dissanayaka**	337	Developing a decision support system for building project procurement
J. C. Lam and **A. L. S. Chan**	351	CFD analysis and energy simulation of a gymnasium
J. Kurnitski	359	Ground moisture evaporation in crawl spaces
A. K. Chakraborty and **S. C. Dutta**	375	Study on silica fume modified mortar with various Indian cements cured at different temperatures
J. Hirunlabh, S. Wachirapuwadon, N. Pratinthong and **J. Khedari**	383	New configurations of a roof solar collector maximizing natural ventilation
D. Drew, M. Skitmore and **H. P. Lo**	393	The effect of client and type and size of construction work on a contractors bidding strategy

Vol. 36, No. 4

W. Maref, M. C. Swinton, M. K. Kumaran and **M. T. Bomberg**	407	Three-dimensional analysis of thermal resistance of exterior basement insulation systems (EIBS)
M. S. Al-Homoud	421	Computer-aided building energy analysis techniques
D. H. W. Li and **J. C. Lam**	435	An analysis of climatic parameters and sky condition classification
Z. D. Chen, Y. Li and **J. Mahoney**	447	Experimental modelling of buoyancy-driven flows in buildings using a fine-bubble technique
A. W. T. Leung, C. M. Tam and **D. K. Liu**	457	Comparative study of artificial neural networks and multiple regression analysis for predicting hoisting times of tower cranes
D. H. W. Li and **J. C. Lam**	469	Development of solar heat gain factors database using meteorological data
K. Rozniakowski, P. Klemm and **A. J. Klemm**	485	Some experimental results of laser beam interaction with surface layer of brick
Z. D. Chen, Y. Li and **J. Mahoney**	493	Natural ventilation in an enclosure induced by a heat source distributed uniformly over a vertical wall
S. Sharples, L. Stewart and **P. R. Tregenza**	503	Glazing daylight transmittances: a field survey of windows in urban areas
Z. J. Kang, H. Xue and **T. Y. Bong**	511	Modeling of thermal environment and human response in a crowded space for tropical climate
A. K. Y. Law, C. K. Chau and **G. Y. S. Chan**	527	Characteristics of bioaerosol profile in office buildings in Hong Kong
S. U. Onbaşioğlu	543	On the simulation of the plume from stacks of buildings
C. M. Chiang, P. C. Chou, C. M. Lai and **Y. Y. Li**	561	A methodology to assess the indoor environment in care centers for senior citizens

Vol. 36, No. 5

S. L. Sinha	569	Behaviour of inclined jet on room cooling
Y. Chen and **S. Wang**	579	Transfer function model and frequency domain validation of moisture sorption in air-conditioned buildings

M. Musy, E. Wurtz, F. Winkelmann and **F. Allard**	589	Generation of a zonal model to simulate natural convection in a room with a radiative/convective heater
J. Chen, B. Duffy, D. F. Fletcher, B. S. Haynes and **P. Nelson**	597	FTIR spectroscopy measurements and CFD simulations of the pollutants arising from unflued combustion in a room
F. M. Al-Shareef, D. J. Oldham and **D. J. Carter**	605	A computer model for predicting the daylight performance of complex parallel shading systems
N.-J. Shih and **Y.-S. Huang**	619	An analysis and simulation of curtain wall reflection glare
P. Depecker, C. Menezo, J. Virgone and **S. Lepers**	627	Design of buildings shape and energetic consumption
P. Chuangchid and **M. Krarti**	637	Foundation heat loss from heated concrete slab-on-grade floors
I. Hacihasanoglu and **O. Hacihasanoglu**	657	Assessment for accessibility in housing settlements
	667	Erratum
	669	Calendar

Vol. 36, No. 6

Special Issue
Building and Environmental Performance Simulation:
Current State and Future Issues

J.L.M. Hensen and **N. Nakahara**	671	Editorial
M. Donn	673	Tools for quality control in simulation
V.I. Soebarto and **T.J. Williamson**	681	Multi-criteria assessment of building performance: theory and implementation
C. Huizenga, Z. Hui and **E. Arens**	691	A model of human physiology and comfort for assessing complex thermal environments
S. Murakami, S. Kato and **T. Kim**	701	Indoor climate design based on CFD – Coupled simulation of convection, radiation, and HVAC control for attaining a given PMV value
S. Kumar and **A. Mahdavi**	711	Integrating thermal comfort field data analysis in a case-based building simulation environment
M. Hayashi, M. Enai and **Y. Hirokawa**	721	Annual characteristics of ventilation and indoor air quality in detached houses using a simulation method with Japanese daily schedule model
M. Matsumoto, S. Hokoi and **M. Hatano**	733	Model for simulation of freezing and thawing processes in building materials
P. Wallentén	743	Convective heat transfer coefficients in a full-scale room with and without furniture
S.J. Rees and **P. Haves**	753	A nodal model for displacement ventilation and chilled ceiling systems in office spaces
N. Igawa and **H. Nakamura**	763	All Sky Model as a standard sky for the simulation of daylit environment
K. Sakai, O. Ishihara, K. Sasaguchi, H. Baba and **T. Sato**	771	A simulation of an underground heat storage system using midnight electric power
A. Karagiozis and **M. Salonvaara**	779	Hygrothermal system-performance of a whole building
A. Mahdavi	789	Simulation-based control of building systems operation
	797	Calendar

Vol. 36, No. 7

Special Issue
Ventilation for Health and Sustainable Environment

H.B. Awbi	799	Editorial
T. Miyanaga, W. Urabe and **Y. Nakano**	801	Simplified human body model for evaluating thermal radiant environment in a radiant cooled space

H. Xing, A. Hatton and **H.B. Awbi** 809 A study of the air quality in the breathing zone in a room with displacement ventilation

M. Abadie, K. Limam and **F. Allard** 821 Indoor particle pollution: effect of wall textures on particle deposition

E. Mundt 829 Non-buoyant pollutant sources and particles in displacement ventilation

S.C Lee, S. Lam and **H.K. Fai** 837 Characterization of VOCs, ozone, and PM_{10} emissions from office equipment in an environmental chamber

J.W. Axley 843 Surface-drag flow relations for zonal modeling

Y. Li, A. Delsante, Z. Chen, M. Sandberg, A. Andersen, M. Bjerre and **P. Heiselberg** 851 Some examples of solution multiplicity in natural ventilation

P. Heiselberg, K. Svidt and **P.V. Nielsen** 859 Characteristics of airflow from open windows

G.R. Hunt, P. Cooper and **P.F. Linden** 871 Thermal stratification produced by plumes and jets in enclosed spaces

H.-J. Park and **D. Holland** 883 The effect of location of a convective heat source on displacement ventilation: CFD study

J. Fredriksson, M. Sandberg and **B. Moshfegh** 891 Experimental investigation of the velocity field and airflow pattern generated by cooling ceiling beams

T. Kim, S. Kato and **S. Murakami** 901 Indoor cooling/heating load analysis based on coupled simulation of convection, radiation and HVAC control

909 Calendar

Vol. 36, No. 8

A.C. Iñigo and **S. Vicente-Tavera** 911 Different degrees of stone decay on the inner and outer walls of a Cloister

W.J. McCarter and **A.M. Ben-Saleh** 919 Influence of practical curing methods on evaporation of water from freshly placed concrete in hot climates

M.Y.L. Chew 925 Curing characteristics and elastic recovery of sealants

H.J. Robertson 931 Spatial characteristics of southeast Australian housing linked with allergic complaint

S. Arthur and **J.A. Swaffield** 939 Siphonic roof drainage system analysis utilising unsteady flow theory

M.A. Sanjuán and **C. del Olmo** 949 Carbonation resistance of one industrial mortar used as a concrete coating

K.W. Cheong 955 Airflow measurements for balancing of air distribution system — tracer-gas technique as an alternative?

M.A. Eben Saleh 965 Environmental cognition in the vernacular landscape: assessing the aesthetic quality of Al-Alkhalaf village, Southwestern Saudi Arabia

S. Lappalainen, E. Kähkönen, P. Loikkanen, E. Palomäki, O. Lindroos and **K. Reijula** 981 Evaluation of priorities for repairing in moisture-damaged school buildings in Finland

987 Calendar

Vol. 36, No. 9

K.-C. Chung and **S.-P. Hsu** 989 Effect of ventilation pattern on room air and contaminant distribution

C.Y.H. Chao 999 Comparison between indoor and outdoor air contaminant levels in residential buildings from passive sampler study

M.W. Ellis and **E.H. Mathews** 1009 A new simplified thermal design tool for architects

I. Škrjanc, B. Zupančič, B. Furlan and **A. Krainer** 1023 Theoretical and experimental FUZZY modelling of building thermal dynamic response

F. Haghighat, Y. Li and **A.C. Megri** 1039 Development and validation of a zonal model — POMA

C.-L. Cheng 1049 A physical study of plumbing life cycle in apartment houses

D.P. Aviram, A.N. Fried and **J.J. Roberts** 1057 Thermal properties of a variable cavity wall

1073 Calendar

Vol. 36, No. 10

Y. Etzion, B.A. Portnov, E. Erell, I. Meir and **D. Pearlmutter**	1075	An open GIS framework for recording and analysing post-occupancy changes in residential buildings — a climate-related case study
T. Keskikuru, H. Kokotti, S. Lammi and **P. Kalliokoski**	1091	Effect of various factors on the rate of radon entry into two different types of houses
X. Yang, Q. Chen, J.S. Zhang, R. Magee, J. Zeng and **C.Y. Shaw**	1099	Numerical simulation of VOC emissions from dry materials
S.C. Dutta	1109	Effect of strength deterioration on inelastic seismic torsional behaviour of asymmetric RC buildings
J.C. Morel, A. Mesbah, M. Oggero and **P. Walker**	1119	Building houses with local materials: means to drastically reduce the environmental impact of construction
P. Tiwari	1127	Energy efficiency and building construction in India
F. Cascetta and **F.M. Rosano**	1137	Assessment of velocity fields in the vicinity of rectangular exhaust hood openings
	1143	Calendar
		Volume Contents and Author Index for Vol. 36; 2001
